

COMMUNITY DEVELOPMENT ACTION PLAN

The *Community Development Action Plan* (CDAP) is a list of short-term projects (**defined as two years or less**). Initial drafts of the CDAPs are developed through review of current projects, planning documents, small group discussions and interviews with community stakeholders, and those working on community projects. The CDAPs are presented at various community and public meetings and distributed for public comment for a period of one month. The final drafts are presented to each county's Board of Commissioners for approval. The approved copies are included as part of this document. The CDAPs are useful tools for organizations working with communities and have evolved into being the central source for listing the full range of projects that are in process or are desired. The CDAPs are used as the official community plan required for eligibility for many federal and state funding sources.

The 2021 La Plata County CDAP has a total of 63 projects that were developed by stakeholders and subsequently approved by the County Commissioners on September 14, 2021, signed by Marsha Porter-Norton, Chairwoman.

Recognizing that the COVID pandemic will impact the economy for years to come, this CEDS focuses on aligning regional strategies with state strategies for addressing equitable and resilient economic growth.

The CDAP projects were aligned with the [State Rural Economic Blueprint](#). Priorities from the State Blueprint are assigned to specific projects in the CDAP. Priorities are numbered below for reference rather than level of importance.

1. **Leverage the Unique Assets of Rural Colorado**
2. **Save Coloradoans Money on Healthcare**
3. **Fulfill Every Child's Potential**
4. **Support Local Community Success in Energy Transmission**
5. **Make Critical Investment in Community Infrastructure**
6. **Invest in Roads and Bridges**
7. **Build on Successful Economic Development Programs**
8. **Community Identified Priorities – this was added for projects aligned more closely with local economic priorities**

The CDAP projects were also linked to six resiliency strategies identified in the [Colorado Resiliency Framework](#), which addresses potential and interrelated economic, social, and environmental risks and vulnerabilities. Abbreviations are listed next to the strategies in the CDAP along with a number representing the supporting strategy. Please refer to the Colorado Resiliency Framework document for details.

1. **Future Ready Economy & Workforce (EW)**
2. **Climate & Natural Hazard Resiliency (CN)**
3. **Building & Infrastructure Sustainability (BI)**
4. **Agriculture & Food Security (AF)**
5. **Housing Attainability (HA)**
6. **Community Capacity (CC)**
7. **Internal to Community (IC) - this was added for projects aligned more closely with local resiliency strategies**

Currently, the CDAP list displays: Project #, Rank, Category, State Economic Development Priority, Resiliency Linkage, Primary Partners, Funding Resources, Cost Estimate, Jobs and Outcomes & Impacts.

CDAP Project Ranking

Ranking Criteria

- Is relevant to economic or community development – aligns with community master plans and priorities or state economic priorities.
- Is relevant to economic or community resiliency – aligns with state resiliency framework.
- Is within the community’s and primary partners ability to influence.
- Metrics address progress and impact.
- Metrics are comparable to other counties, regions, state.
- Data is readily available and accessible to community members.

Rank		
High	Medium	Low
Must meet at least 4 criteria	Must meet at least 3 criteria	Must meet at least 2 criteria

Guidelines for CDAP Review & Project Additions

Region 9 updates and monitors the Community Development Action Plans (CDAPs) for Archuleta, Dolores, La Plata, Montezuma and San Juan Counties in an ongoing cycle every two years. County Commissioners may update their CDAP at any time and provide the update to Region 9. If a project is submitted out of cycle due to timing or grant applications, the project must have the support of that County’s Commissioner and can be added as an addendum.

Criteria for Adding CDAP Projects out of Cycle:

Is the proposed project required to be part of a community plan?

Is project happening before next CDAP revision?

Does project fit a CDAP definition?

CDAP #	Project	Rank
1	Plan Bayfield 2018	High

The connection will realign US 550 directly into the existing US 160 interchange, eliminating the steep and windy grade of the current US 550 Farmington Hill and improving roadway geometry. The project will include wildlife highway mitigation features which will reduce animal-vehicle collisions. Current work is focusing on construction of the bridge piers and bridge caps, earth-work operations, erosion control measures as work progresses and relocation of the 8" HP gas main. Construction began in August 2020 with an estimated completion date in fall 2022
