Motion: Andrea Phillips, Second: Steve Garchar

Motion passed unanimously.

2. [Hermosa to Durango Bicycle Trail](#) – Bob Wolf

a. **Discussion:**

- i. Study plan is an appropriate next step.
- ii. The Trail is already partially established and within an existing ROW.
- iii. Almost all bike shops are selling e-bikes now. Need to get e-bikes off the streets for safety of all parties.
- iv. Need to add the Trail plan to the City of Durango's 2045 Projects Plan and get the project vetted with the public.
 - (a) No additions are allowed for the 10-year plan due to funds and the number of projects. The 10-year Plan are TPR projects that were prioritized from the 2045 Plan. The funds through the 10-year plan are being dispersed throughout Region 5.
 - (b) The 2045 Plan can have additions and projects will be re-prioritized next year as the 2050 Plan is established but the TPR will have to make it a priority on their budgets/plans as well.
 - (c) Adding it to the 2045 Plan is an easy first step in forward movement.
 - (d) CDOT will distribute the entire 2045 Plan to TPR members.
- v. Is funding available through other sources / grants? Is there a possibility of funding through partnerships? Are there funds available through Re-Connecting Communities or America the Beautiful?
 - (a) Bob will investigate other options and will host a fundraiser, as well as adding the project to the 2045 Plan.
 - (b) Multi-mutual plans are funded through the State and Federal agencies.
 - (c) TAP funding may be available.
- vi. What is the residential population of Hermosa compared to Durango or other areas wanting similar projects? If funds are granted, we need to get the most out of it for the public and not necessarily for just one area.
 - (a) Hermosa has a relatively large population base in the area.
 - (b) Pagosa Springs has been trying to get a trail for years for the same purpose. Would like to see equity throughout the region if funds are received.

MOTION: Submit the Trail project for addition to the 2045 Plan.

Motion: Clyde Church, **Second:** Mark Garcia

Motion passed unanimously.

3. Dolores County – Commissioner Steve Garchar

a. Snow Removal in the Town of Dove Creek

- i. Commissioner Garchar asked if CDOT could plow snow to middle of road instead of edges to allow better snow melt?
 - (a) The maintenance team tries to feather out snow piles during warmer days to help with melting. CDOT will discuss changing the plowing with the maintenance team.

- (b) If snow is plowed to the middle, the roads become a safety issue if not removed. Pagosa Springs has an agreement with CDOT to remove excess snow from the middle of the road once CDOT plows.
 - (c) Dove Creek will have to sign an agreement with CDOT to remove excess snow if the snow is plowed to center.
 - b. Wildlife Crossing on Hwy 491
 - i. Commissioner Garchar asked if fencing can be installed to push elk to the culvert section?
 - (a) CDOT has reviewed wildlife collisions in the Region and the top 5% are being revised. Thus, this section is not a focal point per the data reviewed.
 - (b) CDOT is not opposed to installing fence but does not have the funding.
 - c. Oversize Loads on Hwy 491
 - i. Commissioner Garchar asked if oversized loads be restricted from using Highway 491?
 - (a) The District will have to make this determination.
 - (b) CDOT will provide meetings regarding highway standards and policies.
- 4. Elmore's Corner to Bayfield – Commissioner Clyde Church
 - a. Road engineering and funding is being supported by La Plata County for wildlife underpasses and turn lanes.
 - i. Will try to get requests for funds submitted by the 28th.
 - b. More home construction is planned in Bayfield.
 - i. Funding request for traffic light and access is on the 2045 Plan but is thus far, unfunded.
 - ii. La Plata is providing Letters of Support.
- 5. City of Cortez
 - a. Status of the South Broadway frontage roads
 - i. Currently going through devolution process and need to bring roads up to CDOT Standards.
 - ii. Cortez needs cost estimates for improvements. There are 3-4 possible scenarios.
 - (a) Lowest is \$1M for base and pavement.
 - (b) To widen, must have ROW in addition to base and pavement which is approximately \$1.5M
 - (c) Roads must have asphalt since the roads are dirt and chip-sealing will not hold.
 - (d) CDOT could provide re-basing and chip-sealing for the City to take over maintenance of the road. City would then typically receive funds but currently, none are available.
 - b. Updates on Cortez's ACP issues (NuVue, Quick and Clean, frontage roads, etc.)
 - i. Need to prioritize a double left turn for access control.
 - ii. Setup meeting with Jennifer Allison's team to discuss solutions.
 - c. Electrical issues and additional information regarding light changes on Main Street.

 - GVMPO - Announced Dana Brosig's news of the birth of a healthy baby boy. Greyhound Bus is no longer serving Grand Junction. The Mobility Hub site has been selected. GVMPO was happy to support RAISE grant applications for Glenwood Canyon and Cottonwood Springs.
 - GVTPR - The US 50 project is three weeks from now planning to restart the project. Could be 15-30 minute delays with one lane open. Optimistically CDOT anticipates project completion in July. Call for Transportation Alternatives Program (TAP) applications are out. Initial Multimodal Transportation and Mitigation Options fund (MMOF) program funds expire this June, GVTPR is watching for the expiration date that is coming and may need to apply for an extension, or the funds could be taken back. Some projects due to begin in March where conditions allow. The next GVTPR meeting is scheduled for May 11th. Montrose Regional Airport is the most traveled airport in the Western Slope, over 160,000 passengers were accommodated in 2022. Offering services nationwide out of Montrose. \$37M terminal expansion and remodel of the airport is in its final phase with completion anticipated in early fall if materials are still available.
 - IMTPR - TPR met 2 weeks ago and were requested to support two RAISE grants and the grants were supported after more discussion. The issue was that the IMTPR was not involved in prioritization of these projects - with one being a wildlife crossing that was not a TPR priority. The TPR would like to help create a list of prioritized projects for grants. Terri Partsch has left IMTPR and Brian Pettet is seeking a STAC Alternate representative.
 - NFRMPO held the last NFR Planning Council meeting on February 2, 2023 and the Council approved performance targets and an amendment of the NFRMPO UPWP. NFRMPO is updating the 10-Year List of projects. The NFR Planning Council meets tonight.
 - NWTPR - No TPR meeting has been held since the last STAC meeting. The Grand County RAISE grant was submitted, the big item in the area is dealing with snow.

- PPACG - Attended a breakfast with the state legislature. Approved safety performance targets last month. Colorado Springs approved their Transportation Master Plan update, breaking ground in Colorado Springs on the Central Transit Center, A ramp metering project at NB entrance at I-25 Academy Blvd. is in progress. The Military Access Mobility & Safety Improvement Project (MASIP) is going well on the southern side of town.
- PACOG - Held a PACOG Board meeting last week, lots of actions via resolution, selected a new STAC Rep and Alternate, additional MMOF funding was approved for the transportation demand management (TDM) Model update, and a presentation on the Complete Streets initiative was provided..
- SLV - Held a TPR meeting last week on the 23rd. Aaron Minks from Senator Bennett's Office announced that a new round of Congressional designated spending is coming to consider. Held elections, STAC representatives stayed the same. The Wolf Creek West Fiber Optic installation project is occurring. Chain station upgrades are coming. Resurfacing on US 285 Poncha Springs to almost Johnsons Village is coming. Local community American Rescue Plan Act (ARPA) money and Infrastructure Investment and Jobs Act (IIJA) are learning how to stack those funds for projects. Broadband money is coming along. Postal issues are still occurring with the delay of mail. An unsolicited proposal program is being used to find more Fiber Optic cable installation in the Monarch area. A transit meeting is being held tomorrow to discuss improving coordination with Bustang service. There are issues with overnight parking of buses. The next SLVTPR meeting is scheduled for May 25th. CDOT annual meetings are beginning soon with Chaffee County that is scheduled for March 29th.
- SCTPR - No SCTPR meeting was held since the last STAC meeting. On March 22nd they are opening the Outrider System. Huerfano County received Revitalizing Main Streets (RMS) grants for Gardner Pavillion and the Vault Toilet. The Next SCTPR meeting is likely to be in April.
- SETPR - US 50/ CO 71 exchange construction is to start in March or April in Rocky Ford. Lamar US 287 from Parkway to Savage is finishing up, and the next phase is to begin. The next SETPR TPR meeting is scheduled to occur in a couple of weeks.
- SWTPR - the last SWTPR meeting was Feb 9th. STAC representatives will remain the same. The TPR requested to add Bike/Ped projects to the 10-year Plan and they were approved. Region staff is to provide an update of the planning process at the next TPR meeting. SWTPR supported the RAISE grant application for the US 160 East project. The TPR received operational updates from CDOT Region staff.
- UFRTPR - No UFRTPR meetings have been held since the last STAC meeting. Commissioner Ross asked about the status of DTR MMOF projects to occur in his area. I was recommended that he work with the CDOT Region staff on this.
- SUIT - None
- UMU - US 491 Aztec Launch to Four Corners is mostly finished, CDOT just needs to treat the scour of the bridge over the San Juan River. Requested to see analysis on CO 41 improvements. Issues on right-of-way maintenance agreement with CDOT. Up north of CO 491 outside of UMU Reservation we have elk crossing where signage is needed and potholes need filling. More mowing along CO 491 is needed. There are issues with 18-wheelers at the Travel Center. The Tribe would like a new traffic count to justify a street light there. A cattle guard and fencing is another issue. Fencing along CO 491, US 160 and CO 41 is old and livestock leans on it and it breaks. It took over a year for CDOT to reimburse \$1,500 to pay for this loss, and STAC member Heart has a question on taxes. Wants to know if he needs a 1099 form to file taxes for the \$1,500 paid? Believed this money should be tax exempt, being it is on the Reservation.
- FHWA - A formal kick-off of the Safe Streets for All (SS4A) program occurred with a webinar that occurred yesterday. Webinar was recorded and should be in the SS4A webpage in a week or so at: <https://www.transportation.gov/grants/SS4A>. Since those projects are actively managed by the Colorado Division Office, we are reaching out to recipients to conduct a formal kick-off meeting to discuss projects and next steps. Please look for an April Notice of Funding Opportunity (NOFO) that will be released for the next round of SS4A grants.
- FTA - FTA has two open calls for discretionary grant funds - 1) Areas of Persistent Poverty with \$20M that will close on March 10, 2023, and 2) Large Bus and Bus Facility Discretionary Program with \$1.7 B that will close on April 13, 2023. The second program may be a potential source of funding for the SLVTPR Bus

Facility - go to:

6. Legislative Report – Herman Stockinger and Jamie Grim CDOT Office of Policy and Government Relations (OPGR) [\(video timestamp 00:55:19\)](#)
 - The debt ceiling has been reached at the federal government - working together on solutions to raise the ceiling. Military funds have been proposed for a cut. Not sure any have an impact on CDOT or the IIJA funds. CDOT is watching this carefully.
 - Lots of hearings related to China are occurring right now - any legislation or outcomes that may impact manufacturing could influence CDOT purchases.
 - Ohio train derailment - nation is focused on rail safety right now and potential follow up legislation for rail is being considered.
 - Phil Washington, previously Denver International Airport CEO, is in the process to be confirmed as the Federal Aviation Administration (FAA) Administrator.
 - Congressionally Directed Spending Applications opened (EARMARKS) any questions on applications should be directed to Jamie.
7. Safe Routes to School (SRTS) Briefing (Action Item) – Heather Sloop, STAC Vice Chair, Northwest Transportation Planning Region, and Melissa Houghton, SRTS Program Manager [\(video timestamp 00:59:08\)](#)
 - Heather Sloop is on the SRTS Committee, all applications were awarded and it was not an easy process for decision making. A couple of the applications did not fulfill the requirements of the application process.
 - Questions were raised pertaining to \$2M of left over funds. It was explained that they roll over into the next call for projects scheduled to occur in FY 2025/2026.
 - A rather involved discussion ensued regarding the left over funds and concerns that the full amount was not expended now.
 - The project application eligibility issues were the cause for not selecting projects that would expend all of the funds available.
 - The SRTS project selection process is an intense and comprehensive one and done with a lot of thought and consideration. Lots of communication and pre-award meetings occur to ensure a proper and fair process. And communities with submittals unselected are provided explanatory information on why the application didn't work, and how to improve it for future rounds. It would be unfair to pick one application over another to fix their application to spend all the available funds.
 - It was recommended to notify the MPOs of the status of the SRTS applications that didn't get funded so they can offer technical assistance to their jurisdictions.
 - Heather noted she will need someone to replace her on the SRTS Advisory Committee.
 - Concerns that Disproportionately Impacted Communities (DICs) should be provided some priority in the scoring of projects.
 - It was explained that some communities selected for projects were eligible for reduced or eliminated local match requirements, using criteria similar to the MMOF program criteria.
 - SRTS dollars are also good to join with other funding programs to fund projects, such as TAP.
 - **STAC Action:** Recommend to the TC to approve the projects selected for funding - Holly Williams so moved and Brian Pettet seconded.
8. Poor Interstate Pavement Recommendation (Action Item) – Toby Manthey, CDOT Performance and Asset Management Branch [\(video timestamp 01:31:35\)](#)
 - Introduced a new Strategy for addressing the Poor Interstate Pavement.
 - Need to stay lower than 5% lane miles deemed poor to stay within federal guidelines.

- Colorado is at 3.9% now. This proposal is expected to reduce the poor rated pavement percentage down to 1.4% without considering the degradation of other interstate sections.
 - Proposed treatments were explained. Most are not reconstruction, but extend the life about 8–10-Years vs. 20 years with reconstruction, which would be much more costly. The pavement analysis was based on Drivability Life criteria, which is based on the road user experience.
 - Several STAC members expressed concern over not waiting to invest in reconstruction, vs. doing overlay paving.
 - **STAC Action:** Recommend to the TC to approve the proposed method for addressing the Poor Interstate Pavement across Colorado. Nicholas Williams so moved, and seconded by Keith Baker.
 - Commissioners Scott Weaver, and Chris Richardson voted against this action.
 - The action passed by a majority vote of the STAC.
9. Fiscal Year 2024 Final Budget Overview (Action Item) – Bethany Nicholas, Budget Director, Office of Financial Management and Budget - Recommendation to the TC on the final FY 2024 CDOT Budget [\(video timestamp 02:08:56\)](#)
- The proposed final FY24 Budget was presented including changes since the draft budget was proposed in November 2022. STAC expressed unanimous support for its adoption as presented.
10. Fiber Infrastructure Update (Informational Update) – Allie Axley, Branch Manager, Intelligent Transportation Systems & Network Services - Update on Fiber and Broadband Infrastructure Improvements [\(video timestamp 02:28:27\)](#)
- An overview of CDOT’s Intelligent Transportation System (ITS) Branch and the Branch’s Fiber Optic Program was provided, including the roadway and traffic data systems it supports, and CDOT’s fiber lease and right- of-way access programs.
 - Solicitations for fiber lease include an assessment of how the proposed use contributes to CDOT’s mission, such as other transportation system uses proposed by other local governments. CDOT considers the effect on the system as a whole when considering the individual access proposals.
 - The Branch will be presenting to the TC on the Fiber Lease approach in March.
11. Featured Region of the Month: Region 5 (Informational Update) – David Valentinelli Resident Engineer, Region 5 Update on the US 550-US160 Connection South project [\(video timestamp 03:00:27\)](#)
- CDOT’s Region 5 Director, Julie Constan, David Valentinelli Project Director and Environmental Planning Manager Tony Cady presented highlights of the Region’s projects, focusing on the US550 - US160 Connection South project, which is to-date the largest single project ever completed in the Region.
 - The project overview included the history and approach undertaken by CDOT to implement the project. This included measures and approaches taken to maximize safety improvements while minimizing environmental impacts, reducing wildlife vehicle collisions, and improved access management. The project resulted in the discovery of pre-historic human remains and other archaeological finds that were repatriated with the area’s tribes.
12. Other Business - Vince Rogalski, STAC Chair [\(video timestamp 03:22:27\)](#)
- The next STAC meeting is scheduled for Thursday, April 6, 2023.
 - Upcoming STAC action items include the Statewide Transportation Improvement Program (STIP) Update and Adoption in May, and the Program Distribution discussions that are to begin in July.

DATE: APRIL 6, 2023
SUBJECT: MULTIMODAL & ACTIVE TRANSPORTATION GRANT PROGRAMS UPDATE / MANAGING ARPA FUNDING

Purpose

Background

Recently, Colorado has seen major shifts in priorities to mitigate and reduce transportation-related Greenhouse gas emissions, to enable more active transportation modes and to improve access and safety in transportation for Disproportionately Impacted communities. Relatively new multimodal and Active Transportation grant programs such as Multimodal Options (MMOF) and Revitalizing Main Streets (RMS), enabled by unprecedented levels of recent targeted funding, are fueling multimodal transformations across the state.

CDOT's program leaders for the MMOF and RMS grant programs will provide STAC with a general status and overview of these multimodal and active transportation programs, including information on the programs' continued funding, project selections, and CDOT's programmatic efforts.

ARPA/SLFRF Funding Expirations

Colorado's Senate Bill 2021-260 directed a significant portion of Colorado's SLFRF funds to the MMOF program. Those funds, now awarded to local agency projects, carry fiscal limitations that require all funds to be contractually obligated by December 31, 2024, and for all obligated funds to be expended by December 31, 2026. Any and all SLFRF funds that do not meet these deadlines will revert back to the US Treasury and be lost to the state and its awardees.

For awarded projects to successfully meet both these deadlines, they must have achieved critical milestones throughout all phases of the projects' design and construction. CDOT Project Management staff anticipate that meeting these deadlines will be especially challenging for some projects and even unlikely for others. Program staff will discuss the ways CDOT is preparing to mitigate these risks and to provide the Transportation Planning Regions (TPR) information needed to make informed award decisions on at-risk projects.

Recommendations

As the awarding agencies of Local MMOF funding, CDOT recommends MPO/TPRs regularly monitor critical progress milestones and regularly require awardee status reporting on ARPA-funded projects at risk.

Next Steps

In the July-August timeframe, following the compilation of awardees required FY23 MMOF Project Status Reports, CDOT will begin providing risk-level assessments of MMOF projects funded with ARPA/SLFRF to enable them to make timely and informed award decisions.

Transportation Planning Toolkit

The Planning Process

Governance – Federal

- Federal and state law provide the basis for the transportation planning process.
- The Fixing American Surface Transportation Act (FAST Act), enacted by Congress in December 2015, requires the states to produce a Statewide Transportation Plan and a Statewide Transportation Improvement Program (STIP).
- The FAST Act revised planning processes by emphasizing National Performance Goals and focusing on Operations, Freight, Asset Management, and Performance-based Planning.

Governance – State

- State law requires the development of a comprehensive, long-range (20+ year) Statewide Transportation Plan (SWP).
- This plan incorporates the priorities and needs of Colorado's 15 Transportation Planning Regions (TPRs), 5 of which are urban Metropolitan Planning Organizations (MPOs).

Governance – Transportation Commission

- The Colorado Transportation Commission sets policy for the Department and establishes the framework for transportation planning.
- Policy Directive 14 (PD 14) guides the development of the SWP by setting performance goals for the statewide transportation system in the areas of Safety, Infrastructure Condition, System Performance, and Maintenance.

Planning Products

- **Regional Transportation Plans**

- CDOT gathers input from 10 rural Transportation Planning Regions to develop Regional Transportation Plans. Regional plans look out 25 years into the future but focus on actions and investments within the first 10 years.

- **Metropolitan Transportation Plans**

- In metropolitan regions, Long Range Transportation Plans are prepared by Colorado's five Metropolitan Planning Organizations. MPO plans are governed by federal regulations and developed through a comprehensive process similar to the statewide planning process.

- **Statewide Transportation Plan**

- SWP provides strategic direction to achieve these goals and a transparent framework to select investments. Rural and metropolitan long range plans and other statewide modal plans are integrated within the SWP to provide consistent strategic direction.

10-Year Development Program

- The recently-established 10 Year Development Program bridges the gap between the 25-year SWP/RTPs and the 4-year STIP required by federal regulations.
- The Development Program identifies major project and corridor investment priorities that are feasible to deliver within a 10-year timeframe, provided that additional funding becomes available.

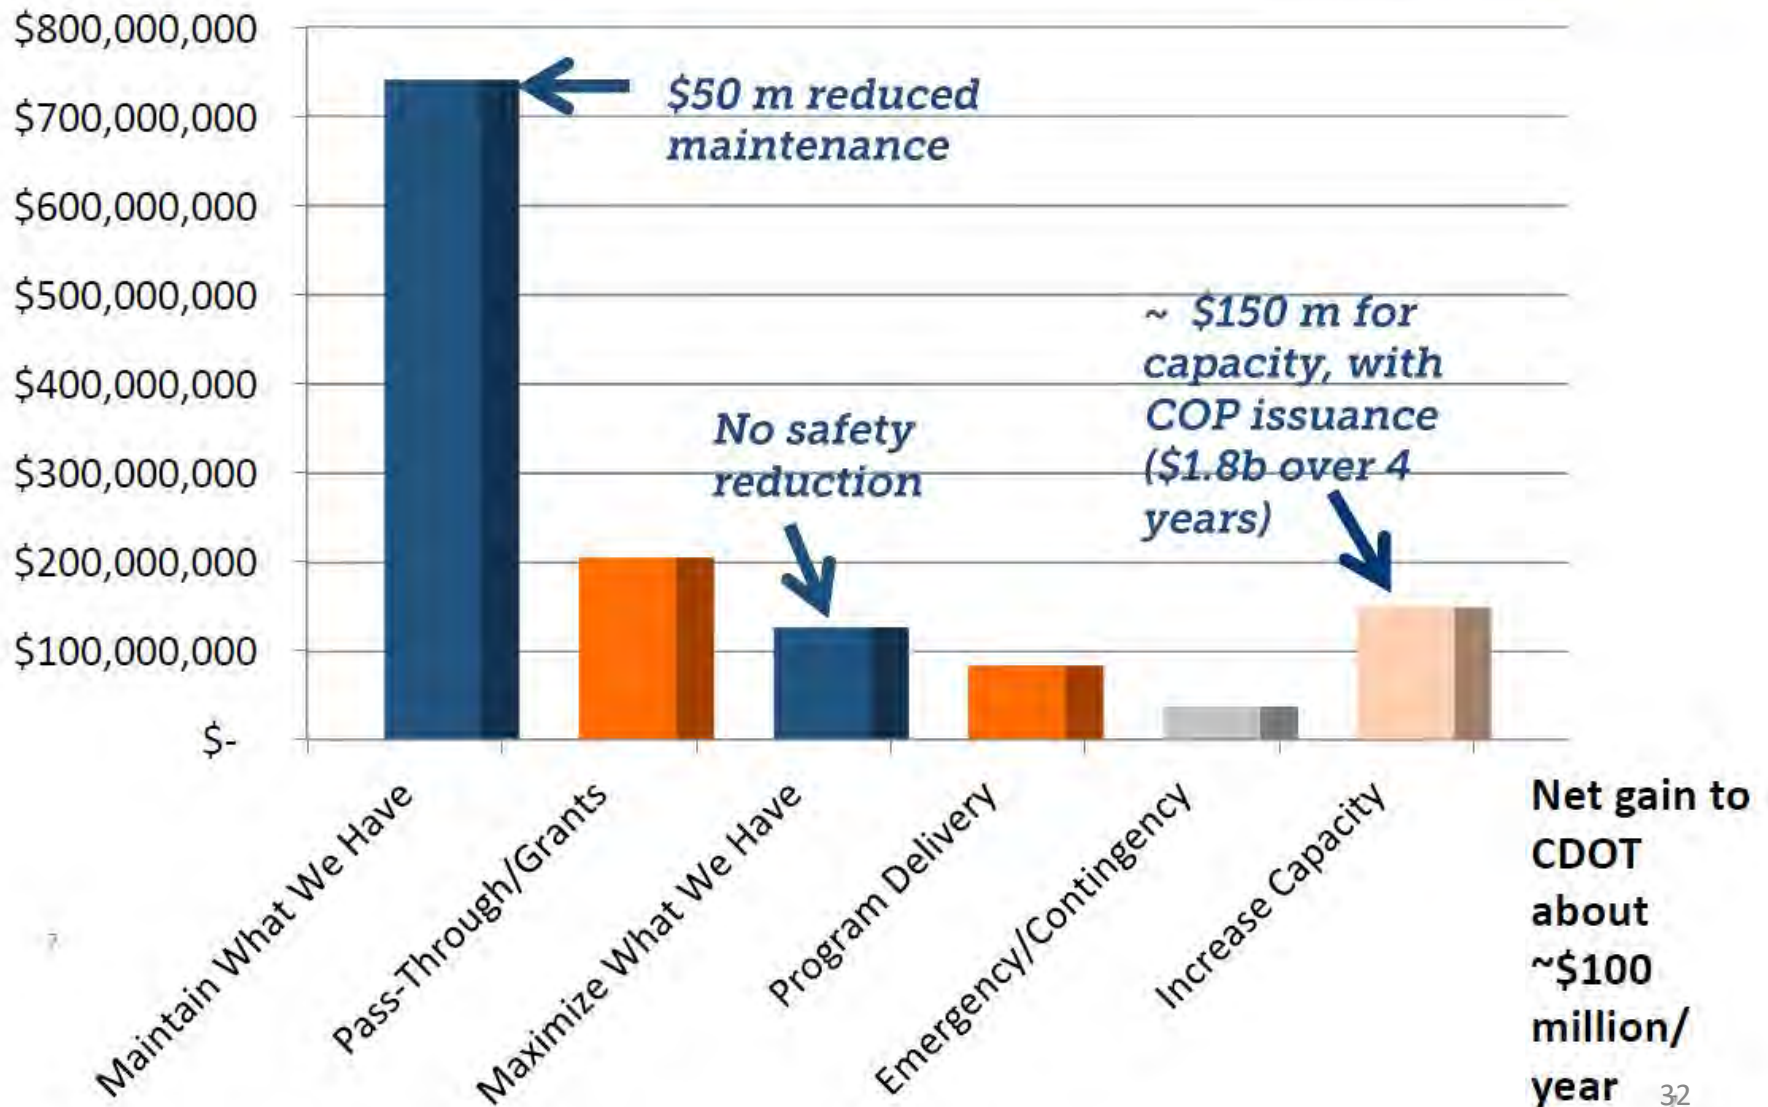

SB 17-267 Details

- Authorizes lease-purchase of state buildings beginning as soon as July 1, 2018 (or as late as June 30, 2019)
- CDOT “receives” \$1.8B of proceeds over 4 years
 - At least 25% to rural counties
 - At least 10% to transit
- CDOT responsibility= \$50 million annually for 24 years
- General Fund (or any other source) responsibility= Up to ~\$100 million annually for 24 years
- SB 228 Transfer in FY18 is not affected (\$79M) but out year transfers are eliminated

CDOT Budget Under SB 17-267

Managing Expectations

\$1.8 billion=

- Less than 10% of CDOT's 20 year need
- \$1.2 billion is paid for by CDOT *existing budget*
- Loss of FY '19 & FY '20 SB 228= \$320 million
- Effectively provides a low interest loan to CDOT to move forward on a number of important projects

SB 17-267: Next Steps- Timing

Creation of a \$1.88 billion list

- Timing
 - TC will consider selection criteria over the summer
 - Continue to work with transportation stakeholders
 - Urgency for project selection?
- Staff was working towards refining the Tier 1 Development Plan into a “ballot list” of approximately \$3.5 billion. In June the TC received an updated list that contains refined cost estimates for projects that were in the Tier 1 grouping.

How Can I Provide Input?

- There are several ways to provide input into project selection processes, including SB 267:
 - TPR and MPO transportation regular meetings offer opportunity to discuss priorities and needs for area- for SB 267 these meetings will be critical
 - CDOT Regions will solicit input from local governments, particularly through MPOs, TPRs
 - Meetings of the Transportation Commission & State Transportation Advisory Committee, or other advisory bodies
 - For most of CDOT's funds, the TC doesn't select projects. For major new programs, like TRANS, RAMP, and SB 267 funds, the TC does review and adopt a specific list of projects
 - Public meetings for specific projects. Regional planning staff can provide information on current project opportunities.

Office of the Secretary

U.S. Department of Transportation

Washington, D.C. 20590

RE: Support for the US 160 Durango East Safety and Mobility Improvement Project – La Plata County
Grant Review Committee:

The Southwest Transportation Planning Region (SWTPR) represents the southwest corner of the State of Colorado, consisting of the counties of Archuleta, Dolores, La Plata, Montezuma, and San Juan, to support transportation planning and coordination throughout the region. The SWTPR would like to express its support for La Plata County's request for Rebuilding American Infrastructure with Sustainability and Equity (RAISE) funding for the US 160 Durango East Safety and Mobility Project. This project addresses several safety and congestion issues and is being undertaken in close collaboration with the Colorado Department of Transportation (CDOT).

US Highway 160 is a critical transportation corridor in southwest Colorado, it is a National Highway System route and is the sole east-west corridor in southern Colorado. This vital link to the transportation system provides for the transport of people, goods, and services through the state and serves as a local and regional highway between the region's population centers.

This project addresses several safety and congestion issues and is being undertaken in close collaboration with the Colorado Department of Transportation (CDOT). The population of La Plata County has more than doubled since highway improvements were made in the 1950's and 1960's. As a result, traffic volumes along the US 160 project corridor have dramatically increased and are further increased 50% in the summer months with the influx of tourists. These factors have contributed to this section having a level Safety Service of 4, which is the highest crash rating and indicates a potential for crash reduction.

Due to the critical necessity to address the issues detailed above and the expected benefits throughout the project area, the SWTPR urges you to support the proposed US 160 Durango East Safety and Mobility Improvements Project.

Sincerely,

Sarah Hill
Southwest Transportation Region Chair

RE: 23783 - PTMV-Request to amend the Intergovernmental Agreement for six month extension

Dear SWTPR Commissioners;

Montezuma County respectfully requests an amendment to our current Inter-Governmental Agreement (IGA) for the Paths to Mesa Verde Project #23783 Segment B extending the performance end date from 6-30-2023 until 6-30-2024, a total of twelve months.

The Paths to Mesa Verde Project Segment B experienced some initial delays while resolving questions of private property ownership within CDOT ROW and State Land Board Property. Those issues are now largely resolved, allowing us to move forward.

Montezuma County's consultant is preparing the final design work on Segment B. If all goes as expected we anticipate requesting a Final Office Review (FOR) in August and beginning the grant closeout in September. We are asking for a twelve month project extension to allow time to complete the final construction plans and a little extra time in case of additional unforeseen difficulties.

Central Federal Lands (CFL) has scheduled Segments C & D on the Mancos side for construction in 2026. Yet inflation related challenges remain. Holding shovel-ready plans is key to Montezuma County's efforts to raise construction funding for Segment B. Montezuma County's strategy is to secure adequate construction dollars for Segment B to build out Segments B, C & D all in 2026.

Montezuma County appreciates the SWTPR's patience and consistent support for the Paths to Mesa Verde Project. We want to assure the SWTP that we will continue to move the project along as quickly as possible. We thank you for your consideration of this request.

The State and FHWA may make periodic inspections to verify that such improvements are being adequately maintained.

ix. Monitoring Obligations

Local Agency shall respond in a timely manner to and participate fully with the monitoring activities described in **§7.F.vi.**

B. State's Commitments

Payments to Local Agency are limited to the unpaid, obligated balance of the Agreement Funds set forth in **Exhibit C.** The State shall not pay Local Agency any amount under this Agreement that exceeds the Agreement Maximum set forth in **Exhibit C.**

B. Payment Procedures

i. Invoices and Payment

- a. The State shall pay Local Agency in the amounts and in accordance with conditions set forth in **Exhibit C.**
- b. Local Agency shall initiate payment requests by invoice to the State, in a form and manner approved by the State.
- c. The State shall pay each invoice within 45 days following the State's receipt of that invoice, so long as the amount invoiced correctly represents Work completed by Local Agency and previously accepted by the State during the term that the invoice covers. If the State determines that the amount of any invoice is not correct, then Local Agency shall make all changes necessary to correct that invoice.
- d. The acceptance of an invoice shall not constitute acceptance of any Work performed or deliverables provided under the Agreement.
- e. If a project is funded in part with Federal or State special funding there may be an expiration date for the funds. The expiration date applies to grants and local funds used to match grants. To receive payment or credit for the match, Work must be completed or substantially completed, as outlined in the terms of the grant, prior to the expiration date of the special funding and invoiced in compliance with the rules outlined in the award of the funding. The acceptance of an invoice shall not constitute acceptance of any Work performed or deliverables provided under the Agreement.

ii. Interest

Amounts not paid by the State within 45 days after the State's acceptance of the invoice shall bear interest on the unpaid balance beginning on the 46th day at the rate of 1% per month, as required by §24-30-202(24)(a), C.R.S., until paid in full; provided, however, that interest shall not accrue on unpaid amounts that the State disputes in writing. Local Agency shall invoice the State separately for accrued interest on delinquent amounts, and the invoice shall reference the delinquent payment, the number of days interest to be paid and the interest rate.

iii. Payment Disputes

If Local Agency disputes any calculation, determination, or amount of any payment, Local Agency shall notify the State in writing of its dispute within 30 days following the earlier to occur of Local Agency's receipt of the payment or notification of the determination or calculation of the payment by the State. The State will review the information presented by Local Agency and may make changes to its determination based on this review. The calculation, determination, or payment amount that results from the State's review shall not be subject to additional dispute under this subsection. No payment subject to a dispute under this subsection shall be due until after the State has concluded its review, and the State shall not pay any interest on any amount during the period it is subject to dispute under this subsection.

iv. Available Funds-Contingency-Termination

- a. The State is prohibited by law from making commitments beyond the term of the current State Fiscal Year. Payment to Local Agency beyond the current State Fiscal Year is contingent on the appropriation and continuing availability of Agreement Funds in any subsequent year (as provided in the Colorado Special Provisions). If federal funds or funds from any other non-State funds constitute all or some of the Agreement Funds, the State's obligation to pay Local Agency shall be contingent upon such non-State funding continuing to be made available for payment. Payments to be made pursuant to this Agreement shall be made only from Agreement Funds, and the State's liability for such payments shall be limited to the amount remaining of such Agreement Funds. If State, federal or other funds are not appropriated, or otherwise become unavailable to fund this Agreement, the State may, upon written notice, terminate this Agreement, in whole or in part, without incurring further liability. The State shall, however, remain obligated to pay for Services and Goods that are delivered and accepted prior to the effective date of notice of termination, and this termination shall otherwise be treated as if this Agreement were terminated in the public interest as described in **§2.C**.
- b. If the agreement funds are terminated, the State can terminate the contract early. Payment due for work done to the date of termination will be processed in a manner consistent with **§2.C**.

v. Erroneous Payments

The State may recover, at the State's discretion, payments made to Local Agency in error for any reason, including, but not limited to, overpayments or improper payments, and unexpended or excess funds received by Local Agency. The State may recover such payments by deduction from subsequent payments under this Agreement, deduction from any payment due under any other contracts, grants or agreements between the State and Local Agency, or by any other appropriate method for collecting debts owed to the State. The close out of a Federal Award does not affect the right of FHWA or the State to disallow costs and recover funds on the basis of a later audit or other review. Any cost disallowance recovery is to be made within the Record Retention Period (as defined below in **§9.A.**).

vi. Federal Recovery

The close-out of a Federal Award does not affect the right of the Federal Awarding Agency or the State to disallow costs and recover funds on the basis of a later audit or other review. Any cost disallowance recovery is to be made within the Record Retention Period, as defined below.

C. Local Agency Funds

Local Agency shall provide their obligated contribution funds as outlined in **§7.A.** and **Exhibit C**. Local Agency shall have raised the full amount of their funds prior to the Effective Date and shall report to the State regarding the status of such funds upon request. Local Agency's obligation to pay all or any part of any matching funds, whether direct or contingent, only extend to funds duly and lawfully appropriated for the purposes of this Agreement by the authorized representatives of Local Agency and paid into Local Agency's treasury. Local Agency represents to the State that the amount designated "Local Agency Funds" in **Exhibit C** has been legally appropriated for the purpose of this Agreement by its authorized representatives and paid into its treasury. Local Agency may evidence such obligation by an appropriate ordinance/resolution or other authority letter expressly authorizing Local Agency to enter into this Agreement and to expend its match share of the Work. A copy of any such ordinance/resolution or authority letter is attached hereto as **Exhibit D** if applicable. Local Agency does not by this Agreement irrevocably pledge present cash reserves for payments in future fiscal years, and this Agreement is not intended to create a multiple-fiscal year debt of

Local Agency. Local Agency shall not pay or be liable for any claimed interest, late charges, fees, taxes, or penalties of any nature, except as required by Local Agency's laws or policies.

D. Reimbursement of Local Agency Costs

The State shall reimburse Local Agency's allowable costs, not exceeding the maximum total amount described in **Exhibit C** and §7. However, any costs incurred by Local Agency prior to the Effective Date shall not be reimbursed absent specific allowance of pre-award costs and indication that the Federal Award funding is retroactive. The State shall pay Local Agency for costs or expenses incurred or performance by the Local Agency prior to the Effective Date, only if (1) the Grant Funds involve federal funding and (2) federal laws, rules, and regulations applicable to the Work provide for such retroactive payments to the Local Agency. Any such retroactive payments shall comply with State Fiscal Rules and be made in accordance with the provisions of this Agreement. The applicable principles described in 2 C.F.R. Part 200 shall govern the State's obligation to reimburse all costs incurred by Local Agency and submitted to the State for reimbursement hereunder, and Local Agency shall comply with all such principles. The State shall reimburse Local Agency for the federal-aid share of properly documented costs related to the Work after review and approval thereof, subject to the provisions of this Agreement and **Exhibit C**. Local Agency costs for Work performed prior to the Effective Date shall not be reimbursed absent specific allowance of pre-award costs and indication that the Federal Award funding is retroactive. Local Agency costs for Work performed after any Performance Period End Date for a respective phase of the Work, is not reimbursable. Allowable costs shall be:

- i. Reasonable and necessary to accomplish the Work and for the Goods and Services provided.
- ii. Actual net cost to Local Agency (i.e. the price paid minus any items of value received by Local Agency that reduce the cost actually incurred).

E. Unilateral Modification of Agreement Funds Budget by State Option Letter

The State may, at its discretion, issue an "Option Letter" to Local Agency to add or modify Work phases in the Work schedule in **Exhibit C** if such modifications do not increase total budgeted Agreement Funds. Such Option Letters shall amend and update **Exhibit C**, Sections 2 or 4 of the Table, and sub-sections B and C of the **Exhibit C**. Option Letters shall not be deemed valid until signed by the State Controller or an authorized delegate. **This is NOT a Notice to Proceed.** Modification of **Exhibit C** by unilateral Option Letter is permitted only in the specific scenarios listed below. The State will exercise such options by providing Local Agency a fully executed Option Letter, in a form substantially equivalent to **Exhibit B**. Such Option Letters will be incorporated into this Agreement. This applies to the entire Scope of Work.

i. Option to Begin a Phase and/or Increase or Decrease the Encumbrance Amount

The State may require by Option Letter that Local Agency begin a new Work phase that may include Design, Construction, Environmental, Utilities, ROW Incidentals or Miscellaneous Work (but may not include Right of Way Acquisition/Relocation or Railroads) as detailed in **Exhibit A**. Such Option Letters may not modify the other terms and conditions stated in this Agreement and must decrease the amount budgeted and encumbered for one or more other Work phases so that the total amount of budgeted Agreement Funds remains the same. The State may also change the funding sources so long as the amount budgeted remains the same and the Local Agency contribution does not increase. The State may also issue a unilateral Option Letter to increase and/or decrease the total encumbrance amount of two or more existing Work phases, as long as the total amount of budgeted Agreement Funds remains the same, replacing the original Agreement Funding exhibit (**Exhibit C**) with an updated **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.).

ii. Option to Transfer Funds from One Phase to Another Phase.

The State may require or permit Local Agency to transfer Agreement Funds from one Work phase (Design, Construction, Environmental, Utilities, ROW Incidentals or Miscellaneous) to another phase as a result of changes to State, federal, and local match funding. In such case, the original funding exhibit (**Exhibit C**) will be replaced with an updated **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.) attached to the Option Letter. The Agreement Funds transferred from one Work phase to another are subject to the same terms and conditions stated in the original Agreement with the total budgeted Agreement Funds remaining the same. The State may unilaterally exercise this option by providing a

fully executed Option Letter to Local Agency within thirty (30) days before the initial targeted start date of the Work phase, in a form substantially equivalent to **Exhibit B**.

iii. Option to Exercise Options i and ii.

The State may require Local Agency to add a Work phase as detailed in **Exhibit A**, and encumber and transfer Agreement Funds from one Work phase to another. The original funding exhibit (**Exhibit C**) in the original Agreement will be replaced with an updated **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.) attached to the Option Letter. The addition of a Work phase and encumbrance and transfer of Agreement Funds are subject to the same terms and conditions stated in the original Agreement with the total budgeted Agreement Funds remaining the same. The State may unilaterally exercise this option by providing a fully executed Option Letter to Local Agency within 30 days before the initial targeted start date of the Work phase, in a form substantially equivalent to **Exhibit B**.

iv. Option to Extend Agreement/Phase Term and/or modify the OMB Uniform Guidance. The State, at its discretion, shall have the option to extend the term of this Agreement and/or update a Work Phase Performance Period and/or modify information required under the OMB Uniform Guidance, as outlined in **Exhibit C**. Any updated version of **Exhibit C** shall be attached to any executed Option Letter as **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.). In order to exercise this option, the State shall provide written notice to the Local Agency in a form substantially equivalent to **Exhibit B**.

F. Accounting

Local Agency shall establish and maintain accounting systems in accordance with generally accepted accounting standards (a separate set of accounts, or as a separate and integral part of its current accounting scheme). Such accounting systems shall, at a minimum, provide as follows:

i. Local Agency Performing the Work

If Local Agency is performing the Work, it shall document all allowable costs, including any approved Services contributed by Local Agency or subcontractors, using payrolls, time records, invoices, contracts, vouchers, and other applicable records.

ii. Local Agency-Checks or Draws

Checks issued or draws made by Local Agency shall be made or drawn against properly signed vouchers detailing the purpose thereof. Local Agency shall keep on file all checks, payrolls, invoices, contracts, vouchers, orders, and other accounting documents in the office of Local Agency, clearly identified, readily accessible, and to the extent feasible, separate and apart from all other Work documents.

iii. State-Administrative Services

The State may perform any necessary administrative support services required hereunder. Local Agency shall reimburse the State for the costs of any such services from the budgeted Agreement Funds as provided for in **Exhibit C**. If FHWA Agreement Funds are or become unavailable, or if Local Agency terminates this Agreement prior to the Work being approved by the State or otherwise completed, then all actual incurred costs of such services and assistance provided by the State shall be reimbursed to the State by Local Agency at its sole expense.

iv. Local Agency-Invoices

Local Agency's invoices shall describe in detail the reimbursable costs incurred by Local Agency for which it seeks reimbursement, the dates such costs were incurred and the amounts thereof, and Local Agency shall not submit more than one invoice per month.

v. Invoicing Within 60 Days

The State shall not be liable to reimburse Local Agency for any costs invoiced more than 60 days after the date on which the costs were incurred, including costs included in Local Agency's final invoice. The State may withhold final payment to Local Agency at the State's sole discretion until completion of final audit. Any costs incurred by Local Agency that are not allowable under 2 C.F.R. Part 200 shall be Local Agency's responsibility, and the State will deduct such disallowed costs from any payments due to Local Agency. The State will not reimburse costs for Work performed after the Performance Period End Date for a respective Work phase. The State will not reimburse costs for Work performed prior to Performance

Period End Date, but for which an invoice is received more than 60 days after the Performance Period End Date.

vi. Risk Assessment & Monitoring

Pursuant to 2 C.F.R. 200.331(b), – CDOT will evaluate Local Agency's risk of noncompliance with federal statutes, regulations, and terms and conditions of this Agreement. Local Agency shall complete a Risk Assessment Form (**Exhibit L**) when that may be requested by CDOT. The risk assessment is a quantitative and/or qualitative determination of the potential for Local Agency's non-compliance with the requirements of the Federal Award. The risk assessment will evaluate some or all of the following factors:

- Experience: Factors associated with the experience and history of the Subrecipient with the same or similar Federal Awards or grants.
- Monitoring/Audit: Factors associated with the results of the Subrecipient's previous audits or monitoring visits, including those performed by the Federal Awarding Agency, when the Subrecipient also receives direct federal funding. Include audit results if Subrecipient receives single audit, where the specific award being assessed was selected as a major program.
- Operation: Factors associated with the significant aspects of the Subrecipient's operations, in which failure could impact the Subrecipient's ability to perform and account for the contracted goods or services.
- Financial: Factors associated with the Subrecipient's financial stability and ability to comply with financial requirements of the Federal Award.
- Internal Controls: Factors associated with safeguarding assets and resources, deterring and detecting errors, fraud and theft, ensuring accuracy and completeness of accounting data, producing reliable and timely financial and management information, and ensuring adherence to its policies and plans.
- Impact: Factors associated with the potential impact of a Subrecipient's non-compliance to the overall success of the program objectives.
- Program Management: Factors associated with processes to manage critical personnel, approved written procedures, and knowledge of rules and regulations regarding federal-aid projects.

Following Local Agency's completion of the Risk Assessment Tool (**Exhibit L**), CDOT will determine the level of monitoring it will apply to Local Agency's performance of the Work. This risk assessment may be re-evaluated after CDOT begins performing monitoring activities.

G. Close Out

Local Agency shall close out this Award within 90 days after the Final Phase Performance End Date. If SLFRF Funds are used the Local Agency shall close out that portion of the Award within 45 days after the ARPA Award Expiration Date. Close out requires Local Agency's submission to the State of all deliverables defined in this Agreement, and Local Agency's final reimbursement request or invoice. The State will withhold 5% of allowable costs until all final documentation has been submitted and accepted by the State as substantially complete. If FHWA or US Treasury has not closed this Federal Award within one (1) year and 90 days after the Final Phase Performance End Date due to Local Agency's failure to submit required documentation, then Local Agency may be prohibited from applying for new Federal Awards through the State until such documentation is submitted and accepted.

The State shall monitor Local Agency's performance in a manner that does not unduly interfere with Local Agency's performance of the Work. The State shall have the right, in its sole discretion, to change its monitoring procedures and requirements at any time during the term of this Agreement. The State shall monitor Local Agency's performance in a manner that does not unduly interfere with Local Agency's performance of the Work. If ARPA funds are used, all ARPA funds must be encumbered by December 31, 2024. All work funded by ARPA must be completed by December 31, 2026 and all bills must be submitted to CDOT for payment by January 31, 2027. These bills must be paid by CDOT by March 31, 2027.

If this project is funded with Multimodal Transportation & Mitigation Options Funding (MMOF) these funding expenditures must be invoiced by June 1st of the year they expire.

By accepting funds for this Scope of Work, Local Agency acknowledges, understands, and accepts the continuing responsibility for the safety of the traveling public after initial acceptance of the project. **Local Agency is responsible for maintaining and operating the scope of work described in this Exhibit A constructed under this Agreement at its own cost and expense during its useful life.**

EXHIBIT H

LOCAL AGENCY PROCEDURES FOR CONSULTANT SERVICES

Title 23 Code of Federal Regulations (CFR) 172 applies to a federally funded Local Agency project agreement administered by CDOT that involves professional consultant services. 23 CFR 172.1 states "The policies and procedures involve federally funded contracts for engineering and design related services for projects subject to the provisions of 23 U.S.C. 112(a) and are issued to ensure that a qualified consultant is obtained through an equitable selection process, that prescribed work is properly accomplished in a timely manner, and at fair and reasonable cost" and according to 23 CFR 172.5 "Price shall not be used as a factor in the analysis and selection phase." Therefore, local agencies must comply with these CFR requirements when obtaining professional consultant services under a federally funded consultant contract administered by CDOT.

CDOT has formulated its procedures in Procedural Directive (P.D.) 400.1 and the related operations guidebook titled "Obtaining Professional Consultant Services". This directive and guidebook incorporate requirements from both Federal and State regulations, i.e., 23 CFR 172 and CRS §24-30-1401 et seq. Copies of the directive and the guidebook may be obtained upon request from CDOT's Agreements and Consultant Management Unit. [Local agencies should have their own written procedures on file for each method of procurement that addresses the items in 23 CFR 172].

Because the procedures and laws described in the Procedural Directive and the guidebook are quite lengthy, the subsequent steps serve as a short-hand guide to CDOT procedures that a Local Agency must follow in obtaining professional consultant services. This guidance follows the format of 23 CFR 172. The steps are:

1. The contracting Local Agency shall document the need for obtaining professional services.
2. Prior to solicitation for consultant services, the contracting Local Agency shall develop a detailed scope of work and a list of evaluation factors and their relative importance. The evaluation factors are those identified in C.R.S. 24-30-1403. Also, a detailed cost estimate should be prepared for use during negotiations.
3. The contracting agency must advertise for contracts in conformity with the requirements of C.R.S. 24-30-1405. The public notice period, when such notice is required, is a minimum of 15 days prior to the selection of the three most qualified firms and the advertising should be done in one or more daily newspapers of general circulation.
4. The Local Agency shall not advertise any federal aid contract without prior review by the CDOT Regional Civil Rights Office (RCRO) to determine whether the contract shall be subject to a DBE contract goal. If the RCRO determines a goal is necessary, then the Local Agency shall include the goal and the applicable provisions within the advertisement. The Local Agency shall not award a contract to any Contractor or Consultant without the confirmation by the CDOT Civil Rights and Business Resource Center that the Contractor or Consultant has demonstrated good faith efforts. The Local Agency shall work with the CDOT RCRO to ensure compliance with the established terms during the performance of the contract.
5. The Local Agency shall require that all contractors pay subcontractors for satisfactory performance of work no later than 30 days after the receipt of payment for that work from the contractor. For construction projects, this time period shall be reduced to seven days in accordance with Colorado Revised Statute 24-91-103(2). If the Local Agency withholds retainage from contractors and/or allows contractors to withhold retainage from subcontractors, such retainage provisions must comply with 49 CFR 26.29.
6. Payments to all Subconsultants shall be made within thirty days of receipt of payment from [the Local Agency] or no later than ninety days from the date of the submission of a complete invoice from the Subconsultant, whichever occurs first. If the Consultant has good cause to dispute an amount invoiced by a Subconsultant, the Consultant shall notify [the Local Agency] no later than the required date for payment. Such notification shall include the amount disputed and justification for the withholding. The Consultant shall maintain records of payment that show amounts paid to all Subconsultants. Good cause does not include the Consultant's failure to submit an invoice to the Local Agency or to deposit payments made.
7. The analysis and selection of the consultants shall be done in accordance with CRS §24-30-1403. This section of the regulation identifies the criteria to be used in the evaluation of CDOT pre-qualified prime consultants and their team. It also shows which criteria are used to short-list and to make a final selection.

The short-list is based on the following evaluation factors:

- a. Qualifications,

- b. Approach to the Work,
- c. Ability to furnish professional services.
- d. Anticipated design concepts, and
- e. Alternative methods of approach for furnishing the professional services. Evaluation factors for final selection are the consultant's:

- a. Abilities of their personnel,
 - b. Past performance,
 - c. Willingness to meet the time and budget requirement,
 - d. Location,
 - e. Current and projected work load,
 - f. Volume of previously awarded contracts, and
 - g. Involvement of minority consultants.
8. Once a consultant is selected, the Local Agency enters into negotiations with the consultant to obtain a fair and reasonable price for the anticipated work. Pre-negotiation audits are prepared for contracts expected to be greater than \$50,000. Federal reimbursements for costs are limited to those costs allowable under the cost principles of 48 CFR 31. Fixed fees (profit) are determined with consideration given to size, complexity, duration, and degree of risk involved in the work. Profit is in the range of six to 15 percent of the total direct and indirect costs.
9. A qualified Local Agency employee shall be responsible and in charge of the Work to ensure that the work being pursued is complete, accurate, and consistent with the terms, conditions, and specifications of the contract. At the end of Work, the Local Agency prepares a performance evaluation (a CDOT form is available) on the consultant.

CRS §§24-30-1401 THROUGH 24-30-1408, 23 CFR PART 172, AND P.D. 400.1, PROVIDE ADDITIONAL DETAILS FOR COMPLYING WITH THE PRECEEDING EIGHT (8) STEPS.

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under Title 23 (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Form FHWA-1273 must be included in all Federal-aid design- build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services). The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in bid proposal or request for proposal documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract.

3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension/debarment or any other action determined to be appropriate by the contracting agency and FHWA.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors.

II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60- 1.4(b) and, for all construction contracts exceeding \$10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

- a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
- b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. **EEO Officer:** The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. **Dissemination of Policy:** All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

- a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.
- b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.
- c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.
- d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.
- e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. **Recruitment:** When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. **Personnel Actions:** Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. **Training and Promotion:** The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

a. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

b. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

c. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.

b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract.

The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non- minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non- minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on [Form FHWA-1391](#). The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA- 1273 format and FHWA program requirements.

1. Minimum wages:

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is utilized in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account, assets for the meeting of obligations under the plan or program.

2. Withholding:

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records:

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements.

It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency.

(2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

- (i) That the payroll for the payroll period contains the information required to be provided under §5.5(a)(3)
 - (ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;
- (ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;
- (iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.

(4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices.

Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. Equal employment opportunity.

The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. Apprentices and Trainees (programs of the U.S.DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal- aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and

7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility:

- a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.

3. Withholding for unpaid wages and liquidated damages. The FHWA or the contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.

4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:

- (1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
- (2) the prime contractor remains responsible for the quality of the work of the leased employees;
- (3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
- (4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract

5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

1. That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.
2. That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

1. Instructions for Certification– First Tier Participants:

- a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.
- b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below.

The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

- c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.
- d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. - 1.11. “Uniform Guidance Supplemental Provisions”** means these Supplemental Provisions for Federal Awards subject to the OMB Uniform Guidance, as may be revised pursuant to ongoing guidance from relevant Federal agencies or the Colorado State Controller.

Submission may be required more frequently if Subrecipient fails to meet a requirement of the Federal award. Subrecipient shall certify in writing to the State at the end of the Award that the project or activity was completed or the level of effort was expended. 2 CFR §200.201(3). If the required level of activity or effort was not carried out, the amount of the Award must be adjusted.

7.1 Event of Default. Failure to comply with these Uniform Guidance Supplemental Provisions shall constitute an event of default under the Grant Agreement (2 CFR §200.339) and the State may terminate the Grant upon 30 days prior written notice if the default remains uncured five calendar days following the termination of the 30 day notice period. This remedy will be in addition to any other remedy available to the State of Colorado under the Grant, at law or in equity.

8. Effective Date. The effective date of the Uniform Guidance is December 26, 2013. 2 CFR §200.110. ASSURANCES OF COMPLIANCE WITH CIVIL RIGHTS REQUIREMENTS

ASSURANCES OF COMPLIANCE WITH TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

As a condition of receipt of federal financial assistance from the Department of the Treasury, the Subrecipient provides the assurances stated herein. The federal financial assistance may include federal grants, loans and Agreements to provide assistance to the Subrecipient's beneficiaries, the use or rent of Federal land or property at below market value, Federal training, a loan of Federal personnel, subsidies, and other arrangements with the intention of providing assistance. Federal financial assistance does not encompass Agreements of guarantee or insurance, regulated programs, licenses, procurement Agreements by the Federal government at market value, or programs that provide direct benefits.

The assurances apply to all federal financial assistance from or funds made available through the Department of the Treasury, including any assistance that the Subrecipient may request in the future.

The Civil Rights Restoration Act of 1987 provides that the provisions of the assurances apply to all of the operations of the Subrecipient's program(s) and activity(ies), so long as any portion of the Subrecipient's program(s) or activity(ies) is federally assisted in the manner prescribed above.

1. Subrecipient ensures its current and future compliance with Title VI of the Civil Rights Act of 1964, as amended, which prohibits exclusion from participation, denial of the benefits of, or subjection to discrimination under programs and activities receiving federal financial assistance, of any person in the United States on the ground of race, color, or national origin (42 U.S.C. § 2000d *et seq.*), as implemented by the Department of the Treasury Title VI regulations at 31 CFR Part 22 and other pertinent executive orders such as Executive Order 13166, directives, circulars, policies, memoranda, and/or guidance documents.
2. Subrecipient acknowledges that Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency," seeks to improve access to federally assisted programs and activities for individuals who, because of national origin, have Limited English proficiency (LEP). Subrecipient understands that denying a person access to its programs, services, and activities because of LEP is a form of national origin discrimination prohibited under Title VI of the Civil Rights Act of 1964 and the Department of the Treasury's implementing regulations. Accordingly, Subrecipient shall initiate reasonable steps, or comply with the Department of the Treasury's directives, to ensure that LEP persons have meaningful access to its programs, services, and activities. Subrecipient understands and agrees that meaningful access may entail providing language assistance services, including oral interpretation and written translation where necessary, to ensure effective communication in the Subrecipient's programs, services, and activities.
3. Subrecipient agrees to consider the need for language services for LEP persons when Subrecipient develops applicable budgets and conducts programs, services, and activities. As a resource, the Department of the Treasury has published its LEP guidance at 70 FR 6067. For more information on taking reasonable steps to provide meaningful access for LEP persons, please visit <http://www.lep.gov>.

4. Subrecipient acknowledges and agrees that compliance with the assurances constitutes a condition of continued receipt of federal financial assistance and is binding upon Subrecipient and Subrecipient's successors, transferees, and assignees for the period in which such assistance is provided.
5. Subrecipient acknowledges and agrees that it must require any sub-grantees, contractors, subcontractors, successors, transferees, and assignees to comply with assurances 1-4 above, and agrees to incorporate the following language in every Agreement or agreement subject to Title VI and its regulations between the Subrecipient and the Subrecipient's sub-grantees, Contractors, Subcontractors, successors, transferees, and assignees:

The sub-grantee, Contractor, Subcontractor, successor, transferee, and assignee shall comply with Title VI of the Civil Rights Act of 1964, which prohibits Subrecipients of federal financial assistance from excluding from a program or activity, denying benefits of, or otherwise discriminating against a person on the basis of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, which are herein incorporated by reference and made a part of this Agreement (or agreement). Title VI also includes protection to persons with "Limited English Proficiency" in any program or activity receiving federal financial assistance, 42 U.S.C. § 2000d et seq., as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, and herein incorporated by reference and made a part of this Agreement or agreement.

6. Subrecipient understands and agrees that if any real property or structure is provided or improved with the aid of federal financial assistance by the Department of the Treasury, this assurance obligates the Subrecipient, or in the case of a subsequent transfer, the transferee, for the period during which the real property or structure is used for a purpose for which the federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. If any personal property is provided, this assurance obligates the Subrecipient for the period during which it retains ownership or possession of the property.
7. Subrecipient shall cooperate in any enforcement or compliance review activities by the Department of the Treasury of the aforementioned obligations. Enforcement may include investigation, arbitration, mediation, litigation, and monitoring of any settlement agreements that may result from these actions. The Subrecipient shall comply with information requests, on-site compliance reviews and reporting requirements.
8. Subrecipient shall maintain a complaint log and inform the Department of the Treasury of any complaints of discrimination on the grounds of race, color, or national origin, and limited English proficiency covered by Title VI of the Civil Rights Act of 1964 and implementing regulations and provide, upon request, a list of all such reviews or proceedings based on the complaint, pending or completed, including outcome. Subrecipient also must inform the Department of the Treasury if Subrecipient has received no complaints under Title VI.
9. Subrecipient must provide documentation of an administrative agency's or court's findings of non-compliance of Title VI and efforts to address the non-compliance, including any voluntary compliance or other agreements between the Subrecipient and the administrative agency that made the finding. If the Subrecipient settles a case or matter alleging such discrimination, the Subrecipient must provide documentation of the settlement. If Subrecipient has not been the subject of any court or administrative agency finding of

discrimination, please so state.

10. If the Subrecipient makes sub-awards to other agencies or other entities, the Subrecipient is responsible for ensuring that sub-Subrecipients also comply with Title VI and other applicable authorities covered in this document State agencies that make sub-awards must have in place standard grant assurances and review procedures to demonstrate that that they are effectively monitoring the civil rights compliance of sub- Subrecipients.

The United States of America has the right to seek judicial enforcement of the terms of this assurances document and nothing in this document alters or limits the federal enforcement measures that the United States may take in order to address violations of this document or applicable federal law.

Dear Southwest Regional Transportation Planning Commissioners:

The La Plata County Board of County Commissioners supports the US Highway 160/Bayfield East Intersection Project located in the Town of Bayfield.

The Town of Bayfield was incorporated in 1906 and as of 2020 has a population of 2,839 people with 1,114 total housing units (per the State Demographer). US Highway 160 bisects the Bayfield community with two access points on the north side of the highway, and two on the south side of the highway. The north access points are at the signalized intersection of CR 501 and North Commerce Drive; the south access points are at the signalized CR 501 intersection and on East Bayfield Parkway. The lack of safe intersections along this section of the US 160 Bayfield corridor creates a significant concern for both pedestrians and motorists crossing the highway.

The need for a second signalized intersection at Bayfield Parkway and US 160 has been discussed for many years. The 2014 Town of Bayfield US 160 Traffic Feasibility Study and the 2015 Town of Bayfield US 160 Access Study results indicate the need for a signalized intersection at this location. In 2018, the Bayfield School District paid \$500,000 towards the intersection improvements as part of their development approval for the new secondary school, with the intention of being able to use the new intersection for additional access to the secondary school and the existing middle school, which are both located off East Oak Drive. Also in 2018, the owners of the Bayfield East Property (see map below) worked with CDOT to get the A-line opening on US 160 for the northern extension of the Bayfield Parkway public street.

Bayfield is one of the fastest growing communities in the southwest Colorado region with approximately 229 acres of annexations and almost 900 new residential units in the development review process. This intersection is key for future growth to occur in Bayfield. On October 8, 2020 the Southwest TPR voted to include this project on the SWTPR list of priority projects, but at that time it was not put on the 10-year funded project list.

On June 7, 2022, the Bayfield Board of Trustees directed Town staff to apply for the Bayfield East Intersection Access Permit from CDOT and approved an appropriation of \$148,980 to get 60% of engineering designs completed for the US 160, Bayfield Parkway and East Oak Drive connection. The Town hired SEH to complete engineering designs, and 60% is almost complete. Town staff is looking at grant funding to take the project to 100% engineering design which will cost an additional \$100,000. Town staff is also working on how to fund the construction of the intersection and roadways. Based on the 60% engineering design, the current cost estimate to construct the intersection and install a signal (not including the connection to East Oak Drive) is approximately \$3,300,000 with the understanding that this will most likely increase in the future.

This project is a priority for the Town of Bayfield and La Plata County residents, as the installation of the signalized intersection project will benefit the Bayfield community and adjacent rural County residents by:

- Providing more connectivity within the community;
- Providing a safe, secondary alternative for those walking, biking or driving vs having to use the existing signal at CR 501, which is almost 1-mile away;
- Minimizing conflicts from pedestrians trying to cross the highway at non-signalized points;
- Minimizing vehicle conflicts at the current one-way stop intersection at Bayfield Parkway and US 160;
- Minimizing vehicles traveling at high speeds through the Bayfield community;
- Benefiting our Disproportionately Impacted (DI) residents by providing additional access options;
- Providing additional mobility options for seniors or persons with disabilities; and
- Providing safe routes to schools for children.

We greatly appreciate your consideration to move this project to TPR's 10-year funded project list.

Sincerely,

LA PLATA COUNTY
BOARD OF COUNTY COMMISSIONERS

Funding Alert: USDOT FY23 Safe Streets and Roads for All NOFO	March 31, 2023
--	-----------------------

Good morning,

USDOT announced that the fiscal year (FY) [2023 Notice of Funding Opportunity](#) (NOFO) for **Safe Streets and Roads for All** grants is live and open for applications. As a reminder, the purpose of SS4A grants is to improve roadway safety by significantly reducing or eliminating roadway fatalities and serious injuries through safety action plan development and refinement and implementation focused on all users, including pedestrians, bicyclists, public transportation users, motorists, personal conveyance and micromobility users, and commercial vehicle operators.

The IIJA/BIL established the SS4A program with \$5,000,000,000 in advanced appropriations in Division J, including \$1,000,000,000 for FY 2023. Additionally, DOT has \$177,213,000 in FY 2022 carryover funds set aside for Planning and Demonstration Grants as well as certain eligible safety planning and demonstrative activities that may be included under an Implementation Grant request. Therefore, this Notice makes available up to \$1,177,213,000 for FY 2023 grants under the SS4A program. Refer to Section D for greater detail on additional funding considerations and Section D.5 for funding restrictions.

The program provides funding to develop the tools to help strengthen a community's approach to roadway safety and save lives and is designed to meet the needs of diverse local, Tribal, and regional communities that differ dramatically in size, location, and experience administering Federal funding. Page 4 of the NOFO lists some of the substantive differences from last year. To learn more about these specific changes, click [here](#).

Applications are due **July 10, 2023**.

Please let us know if you have any questions.

Thank you,
